

Stas Organizer

Synchronized real-time data for construction companies.

Problem

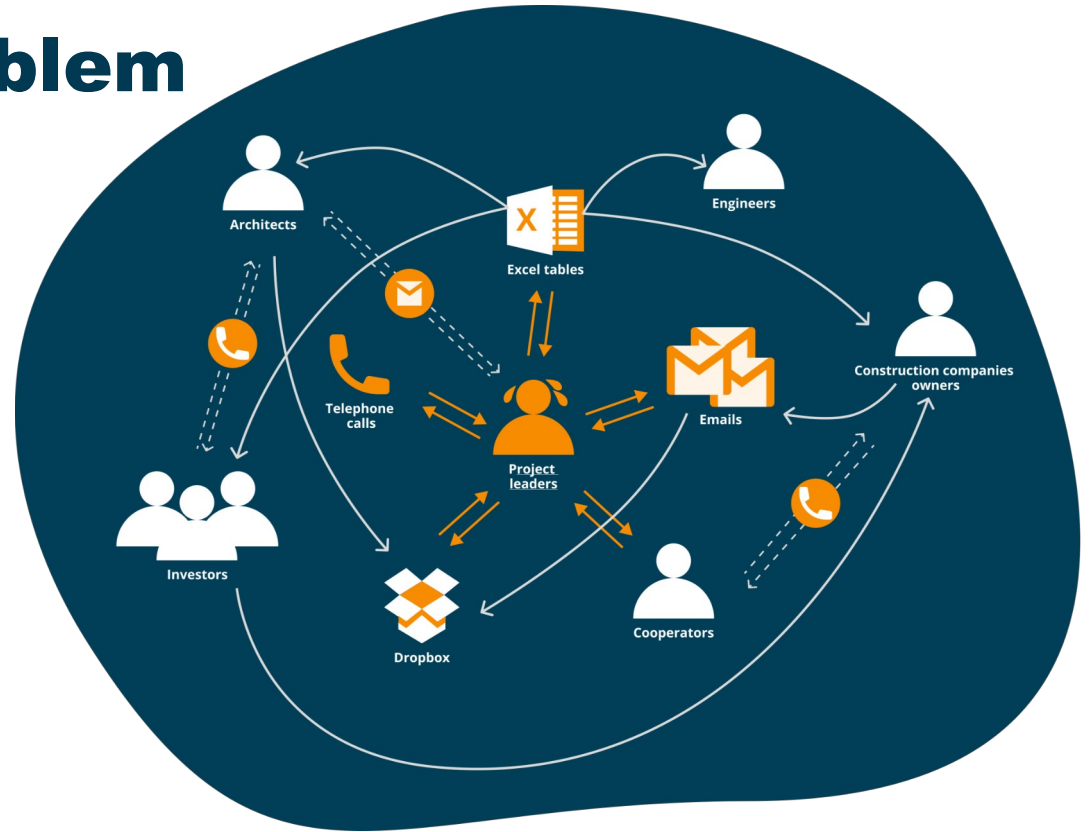

→ Holes and non-synchronization in communication

Cause of the problem

- Using large number of unsynchronized **tools**
- Non-interactive **communication** between departments
- Lack of visibility of “real-time” **data**

Who is behind STAS Organizer?

- 32 years of experience in construction sector
- Software born out of necessity
- Company with 75 employees – administration work shortened to few minutes a day

STAS Organizer

- Connecting all departments of construction company
- Organisation of workers by projects/locations in few minutes
- Eases supervision of workers and data monitoring from the field (worker input, GPS vehicle tracking)
